CEO Report Cindy Levi highlighted the following in her report:
<ul> <li>Regina Grisham will be retiring at the end of June 2020, and Dana Sharitt is training and will be taking</li> </ul>
over the position upon Regina's retirement.
97 Covid-19 incident reports have been filed which includes symptoms, potential exposures, known
exposures, quarantines and all Covid-19 testing (both positive and negative results). Catherine
Ashley and Olivia Knox in our health and safety department has done a good job tracking
38 individuals have been quarantined due to possible or actual exposure, 16 Avita clients tested
positive but none of them were in Avita facilities within the 14-day contagious period
One host home provider tested positive with no symptoms, 4 staff tested positive, but all are
recovering and three have returned to work
<ul> <li>Everyone is screened upon entering Avita facilities and visitors are being restricted. We are taking temperatures, masks are being provided and are to be worn in all facilities; executive leadership</li> </ul>
team have had calls at 9am and 4pm daily since mid-March, and that will be reduced to once a day
now.
For the past 4 weeks we have received PPE (Personal Protective Equipment) from DPH (Department)
of Public Health). We have not had to purchase masks, hand sanitizers, gloves, face shields and
coveralls. We donated 350 coveralls to NGMC. Sanitizing wipes and Lysol have been difficult to find.
No contact thermometers were a challenge to find as well, but we have them now.
IDD staff have been documenting services and billing thanks to Appendix K. They have been
delivering mediate these who wently be referred and staff and the first and staff
services and relief for host home providers.

Agenda Items	Key Discussion Points/Outcomes/Decisions/Action Items
Agenua items	We have business Interruption service with our insurance package through DOAS—up to \$25M to
	include infectious disease. DOAS has submitted a claim and we are waiting for the results
	A GEMA grant has been applied for, but we must wait to see if our business interruption insurance will pay out first
	GA National Guard sanitized CSU, administration offices and residential program spaces. After we had a Covid positive test they came back to sanitize our supported apartments and women's
	treatment program. Habersham county maintenance has disinfected the facilities we use there twice.
	Questions? Sylvia Chassner asked what do we do if Appendix K does not pay like Avita was originally told?
	Cindy Levi responded that those were the reasons we keep a surplus in our bank account.
	CARF Survey will be done remotely July 22-24, and we will receive a discount due to no travel by the surveyors
	State budget – All departments were to reduce their budgets by 14% for FY21 (for DBHDD that adds up to \$172M). We are waiting to hear how this will impact Avita services
	BHCC – received full funding for the new center; clearing of land is complete; retaining walls have not begun because of rain
	Admin office – recent flood in the kitchen because of a hose that came loose from the ice maker; we have done temporary fixes and are waiting on insurance to move forward
	A written story was provided by Carly Anderson, a staff member in Blairsville. She shared how much our clients in that area have enjoyed Avita staying in touch during this time and how much it has meant to her personally.
Financial Update	Greg Ball, CFO reviewed the financial report for April 2020
	<ul> <li>April surplus of \$252K, reduced overall YTD deficit to \$13K</li> <li>Appendix K – Recovered lost revenue from March</li> </ul>
	As of April 30, our financial story looks more positive, bur our results less predictable in the current situation
	• YTD – up \$1M
	<ul> <li>We are receiving supplemental funding from DBHDD</li> <li>Medicaid funds show a shortfall</li> </ul>
	Revenues – year over year down - due to Covid-19 we are not experiencing incremental revenue like usual
	<ul> <li>During March and April our operating expenses were reduced almost 10K per day. This is due to having fewer staff, staff are working fewer hours and staff are using PTO and unpaid leave</li> <li>We have reduced our use of contracted prescribers as well pharmaceutical purchases, transportation</li> </ul>
	costs, and host home provider expenses all being down
	Cannot compare FY19 and FY20 but we are close to break even this year. While there is lots of upper distability, breaking even in EY20 is within target.
	<ul> <li>unpredictability, breaking even in FY20 is within target.</li> <li>We are in a healthy cash position; capital assets increased and will continually increase and fund balance increases (through operations and through investments).</li> </ul>
	Our key performance indicators continue to look positive
